BOTOX

Patient Information

Post-Treatment Instructions

1. After a Botox treatment: there may be some redness in the area; temporary bruising or swelling; headache lasting 24-48 hours.
 - Do not rub the area injected for TWO HOURS after injection
 - Exercise the muscle injected for ONE HOUR after injection
2. It can take up to 2 weeks to notice the benefits of Botox
3. Re-treatment may be necessary 3-4 months after each injection
